英語プレゼンテーションに関する 講習会のお知らせ

Scientific presentations in English

Students and young researchers will often be required to present their research at international conferences. Since the working language of most international meetings is English, it is essential that students be able to communicate their work clearly and concisely.

In this talk we will discuss how to prepare and deliver a scientific presentation in the English language. Topics include: preparation of slides, how to express yourself concisely and accurately, how to introduce and progress through your talk, and how to describe graphs and images.

講師

2022

5/18 WED

10:30 – 12:00

復興記念教育研究未来館
復興記念ホール
(オンライン併用)

Associate professor at RIEC, Tohoku University

Dr. Simon Greaves

略歴: Simon Greaves is an associate professor at RIEC, Tohoku University, where he works on information storage technologies. His main research interests are in magnetic data storage media, devices and systems.

He has published more than 150 papers in peer-reviewed journals and given numerous presentations at international conferences and meetings.

Before taking up his current position at Tohoku University he was employed as an engineer by Hoya Corporation, where he worked on the development of media for hard disk drives.
